The mechanism allows independent reclining of the seat and backrest, as well as independent headrest lift.
Versions **"comfort electric recliner"** additionally include an independently operated push mechanism and lumbar support and are equipped with a push-button control (PUL M5).
The maximum overall height of the model with fully raised headrest is 100 cm, while the maximum depth of the fully extended recliner is 160 cm.
It is important to distance the sofa at least 10 cm from the wall to ensure the correct operation of the headrest.

Components: an integrated push-button control, available on all versions with an electric mechanism, allows easy adjustment of the backrest, seat, lumbar support, or headrest (where fitted), ensuring optimal comfort.
The control panel is equipped with a USB-C port for connecting and charging electronic devices.
The reset button enables a quick return to the initial position.

Standard feet: PVC, h. 4 cm.
